This Agreement (including the Schedules hereto) constitutes the entire understanding and agreement between the parties with respect to the subject matter addressed herein and supersedes any and all prior or contemporaneous oral or written communications with respect to the subject matter hereof, all of which are merged herein. In the event of a conflict between the foregoing terms and conditions and any Schedules to this Agreement, the foregoing terms and conditions will control. The parties agree that in the event Client utilizes a purchase order, any term therein which purports to modify or supplement the terms of this Agreement will be void with no force or effect. Any provisions necessary to interpret the respective rights and obligations of the parties hereunder will survive any termination or expiration of this Agreement, regardless of the cause of such termination or expiration.

12.12 The Applicable Terms. If Rival makes a material change to any applicable contract terms contained in a URL, then Rival will notify Client by either sending an email to the notification email address or posting a notice in the Administrator's view of Client's account. If the change has a material adverse impact on Client and Client does not agree to the change, Client must so notify Rival within thirty days after receiving notice of the change. If Client notifies Rival as required, then Client will remain governed by the URL terms in effect immediately prior to the change until the end of the then current Term for the affected Hosted Service. If the affected Hosted Service is renewed, it will be renewed under Rival's then current URL terms and conditions.

12.13 Governing Law. This Agreement will be governed by the laws of the State of Delaware, excluding its rules regarding conflicts of law. Venue for any dispute hereunder will be a court of competent jurisdiction located in Delaware, and the parties irrevocably submit to the exclusive jurisdiction of such courts. All proceedings will be conducted, including all documents presented in such proceedings, in the English language. The English language version of this Agreement prevails over any other language version.

12.14. Dispute Resolution. Each party agrees that before it or any employee, agent or representative of the party files a claim or suit with a federal or state agency or court or other public forum, it shall provide thirty (30) days prior written notice to the other and that, within such thirty (30) day period (or longer, if extended by mutual desire of the parties), authorized representatives of the parties shall meet (or confer by telephone) at least once in a good faith attempt to resolve the perceived dispute.

SCHEDULE A - SERVICE LEVEL AGREEMENT

This Service Level Agreement (“SLA”) is a Schedule to the Rival Terms and Conditions between Rival and Client, which is hereby incorporated by reference. This SLA applies to the Hosted Service during the Term as set forth in the applicable Order Form. The Hosted Service shall be operated on the SilkRoad Network (as defined below) in a U.S. location unless the parties specifically provide for another location on the Order Form.

1. Availability

a. Formula. The Hosted Service will, subject to the exceptions listed below, be available 99.5% of the time during each calendar month from the time that the Hosted Service is being used in Client’s production environment following completion of implementation services (referred to herein as the “**Availability Commitment**”). The availability of the Hosted Service for a given month will be calculated according to the following formula (referred to herein as the “**Availability**”):

Where: Total minutes in the month = TMM
Total minutes in the month the Hosted Service is unavailable = TMU

And: **$((TMM - TMU) \times 100) / TMM$**

b. For purposes of this calculation, the Hosted Service will be deemed to be unavailable (referred to herein as “**Unavailable**”) only (i) if the Hosted Service does not respond to HTTP requests issued by Rival’s monitoring software, or (ii) for the duration of a Severity-1 Error as defined in the Maintenance and Support Guide attached as a Schedule to the Agreement. Further, the Hosted Service will not be deemed Unavailable for any downtime or outages that result from the exceptions set forth in Section 2 of this SLA. Client acknowledges that Rival’s system logs, records and data will provide the basis for SLA calculations and determinations.

2. Exceptions

a. The Hosted Service will not be considered to be Unavailable (and minutes will not accrue as TMU) for any downtime or outages that result from any maintenance performed by Rival: (i) during the standard Rival implementation period; (ii) during Rival’s Information Technology standard maintenance window (Saturdays between 6 a.m. and 8 a.m. [06:00 – 08:00] Eastern Standard Time [UTC - 5]) and during product upgrade maintenance activities (collectively referred to herein as “**Scheduled Maintenance**”); or (iii) during a maintenance period performed at Client’s request outside of the normally scheduled maintenance window.

b. The Rival network extends to, includes, and terminates at the data center located router that provides the outside interface of each of Rival’s WAN connections to its backbone network providers (referred to herein as the “**Rival Network**”). The Hosted Service will not be considered Unavailable (and minutes will not accrue as TMU) for any downtime or outages that result from: (i) Client’s information content or application programming, acts or omissions of Client or its agents; (ii) delays or failures due to circumstances beyond Rival’s reasonable control that could not be avoided by its exercise of due care (including Force Majeure events as set forth in the Agreement); or (iii) failures of the Internet backbone itself and the network by which Client connects to the Internet backbone or any other network unavailability outside of the Rival Network.

3. Remedies Subject to the exceptions provided for in this SLA, Client will have the rights set forth below:

a. If the total Availability (as calculated above) for a given month is less than the Availability Commitment, Client will receive one (1) Service Credit. In addition, for each 100-minute increment by which the allowable Unavailability is exceeded, Client will receive one (1) additional Service Credit.

b. For purposes of this SLA, a Service Credit will be deemed to be an amount equal to the pro-rata fees for one (1) day of the subscription to the affected Hosted Service (herein referred to as a “**Service Credit**”). The total Service Credits for a given month will, in no event, exceed an amount equal to fifty percent (50%) of the then-current pro-rata monthly fees for the Subscription to use the affected Hosted Service. Service Credits will be applied as a credit to extend the Term of the applicable subscription term for the affected Hosted Service.

c. If the applicable Hosted Service fails to achieve the Availability Commitment, then Client will be entitled as its sole and exclusive remedy, to Service Credits for the applicable Hosted Service in accordance with the terms set forth in this Section 3.

d. Remedies will not accrue if Client is not current on its payment obligations (i.e., no Service Credits will be issued, and an outage will not be considered Unavailable for purposes of this SLA).

e. Upon written request from Client, Rival will promptly provide a report specifying the level of Unavailability and Service Credits due (if any) for the requested month. To receive Service Credits, Client must submit such request within ninety (90) days after the end of the month to which the request pertains.

f. Client shall also have the additional remedy of termination of this Agreement upon written notice if Rival fails to meet Availability of at least 98% in two consecutive months or any three months in a six-month period.

Communications with Technical Support may be via telephone or e-mail (and may be recorded for quality assurance purposes). Rival provides a single-entry point of contact that routes requests/problems to the appropriate Technical Support resource.

3. Severity Levels. Technical Support will prioritize problems/requests according to the severity levels set forth below. Rival will use commercially reasonable efforts to respond according to the response specifications set forth below with respect to the Severity Level assigned to the problem:

Severity 1 – Critical

The Hosted Service suffers an error or issue in a production down situation that cannot be reasonably circumvented and which so substantially impairs the performance of the Hosted Service or any components of the Hosted Service, which are critical to the Client's business, as to effectively render the Hosted Service unusable. Rival will acknowledge any such reported error or issue within thirty (30) minutes,* and Rival will work twenty-four (24) hours a day, seven (7) days a week to address and resolve the error and provide an applicable workaround or fix.

Severity 2 – Serious

The Hosted Service suffers an error or issue, which cannot be reasonably circumvented, and which substantially impairs the use of one or more portions or features of the Hosted Service required by Client to perform necessary business functions but does not effectively render the Hosted Service unusable as a whole. Rival will acknowledge any such reported error or issue within two (2) hours,* and Rival will continually work within normal business hours† to address and resolve the error and provide an applicable workaround or fix.

Severity 3 – Moderate

The Hosted Service suffers a low impact error or issue (which is not of Severity 1 or Severity 2) that impairs the use of the features of the Hosted Service, but the reported error or issue can be reasonably circumvented. Rival will acknowledge any such reported

error or issue within eight (8) hours,* and Rival will work within normal business hours† to address and resolve the error and provide an applicable workaround or fix.

Severity 4 – Minor

The Hosted Service does not incur an error and allows Client to function normal business operations; however, Client inquiries about existing Documentation, training, standard use of the Hosted Service or other general matters. Rival will acknowledge any such inquiry within twenty-four (24) hours,* and Rival will work within normal business hours† to address and resolve the error and provide an applicable workaround or fix.

* Response times are measured from the time Client has spoken with or left a voicemail or email for a Rival Client support contact specifying the nature of the Client's problem.

† Normal business hours are Monday through Friday, 8:00 am until 7:00 pm (08:00 – 19:00) Eastern Time (UTC – 5), excluding national or statutory holidays.

4. Response. The Severity Level of the problems reported by Client will be reasonably determined by Rival. Rival will resolve each reported error or issue with the Hosted Service by using commercially reasonable efforts to provide: (i) a patch or fix as necessary; or (ii) a reasonable workaround for the error or issue; or, if either (i) or (ii) are not reasonably practicable, a specific action plan regarding how Rival intends to address the reported error or issue and an estimate on how long it may take to correct or workaround the error or issue. Client agrees to use commercially reasonable efforts to assist and provide information to Rival as required for resolving errors or issues with the Hosted Service reported by Client. In the event Rival fails to meet its obligations under this Section, which may constitute a material breach of the Agreement, Rival will provide a root cause analysis including definition, corrections and process improvement plan. If a permanent repair cannot be made, a temporary resolution (bypass and recovery) will be implemented to the extent possible.

5. Scope. Support covers any issue or problem that is the result of a verifiable, replicable error in the Hosted Service. Rival will use commercially reasonable efforts to verify and replicate the issue or problem reported by Client. If Technical Support and Client reasonably determines that the Client's issue or problem is not caused by Rival or its systems, equipment, or software, nor constitutes a material failure by the Hosted Service to function in accordance with the Documentation, Rival is not obligated to provide support under this Agreement. Nevertheless, Rival will, if possible, offer suggestions as to how Client can remedy the problem and Rival may offer to provide out of scope Professional Services as described in Section 6 below.

6. Additional Support. Technical Support may also determine that Client's request is a request for "**Additional Support.**" Additional Support is any assistance not covered in Section 5 above. Examples of Additional Support include substantive questions regarding data or results, requests for Hosted Service configuration, specialized training regarding use of the Hosted Service, custom documentation, and consulting. If Rival believes that it can appropriately and effectively provide the requested Additional Support, it will offer to do so at the current rate for Professional Services pursuant to a written agreement between the parties.

7. Client's Responsibilities. Client's Representative will initiate all requests for Support. The Representative must be trained, qualified, and authorized to communicate all necessary information, perform diagnostic testing under the direction of the Rival service representative and be available during the performance of any Support if required.

8. Submitting a Request

At the time of Client's initial call or e-mail, please be prepared to provide:

1. Representative's name, company name and the Hosted Service Client is using;
2. The type of browser (with release version) and hardware Client is using;

6. The circumstances under which the problem does or does not occur; and
7. Specific error messages, error numbers, log files and program numbers.

For new cases, Technical Support will use the following process to assist Client with a new issue:

1. Document the supplied information;
2. Document Client's questions or issues (symptom and function in which it occurs);
3. Answer Client's questions or have Client run tests to further identify and isolate the problem; and
